Program

2018-2019

### We believe strongly in these key principles to our program:

1. Encourage using the imagination.
2. Instill pride in personal ideas & abilities.
3. Focus strongly on individuality.
4. Honor the creative process with less emphasis on the finished product.

Our program for children is designed to give kids a hands-on experience using clay to create personally significant art. They use the potter's wheel, build sculptures and learn to hand-build using coil, slab and pinching techniques. We are project based with the emphasis on creative expression and individuality. As children progress in their abilities and skills with clay, so do the projects offered to them.
